

Political Risk Insurance enables Banks, Traders and Corporates to engage in foreign trade and investment, without the threat of country risk or political violence. Not only does this encourage companies to rapidly expand their overseas operations – it also allows them to operate in high margin emerging markets, and so dramatically increase their ability to compete.

Political Risk Insurance can enable customers to obtain cheaper financing. It can allow them to remove liabilities from their balance sheets. And it can ensure the viability of trade and projects which would not otherwise be workable.

The Political Risks team at Benfield has great depth of experience in Structured Trade and Project Finance, together with Trade Credit and Terrorism. We stay alert to developments in all relevant markets, including banking, trading and insurance.
